Product Description

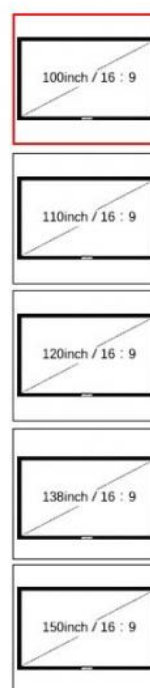

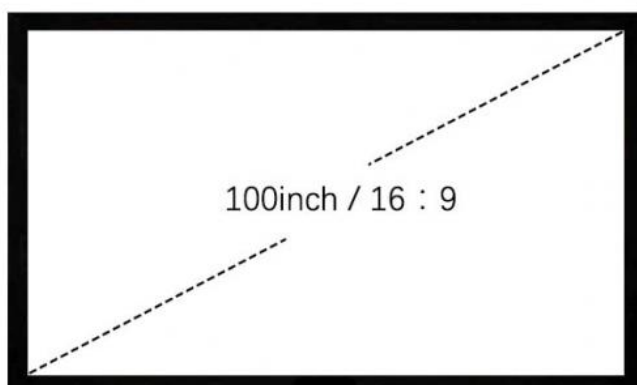

Screen Material: Cine white Fabric, With 1.1 gain and an exceptionally wide viewing angle of 160 degrees, without any resolution loss at any viewing angle, heavy-duty aluminum alloy frame wrapped by light-absorbing black velvet for colorful viewing image; Enjoy attractive movies, pictures, and games in FULL HD and Active 3D.

Quick and easy assembly with tensioning rod and spring system ensures that you can bring cinema-quality entertainment to your home in few minutes. Secure top and bottom mounting brackets that allow horizontal adjustment. Super soft fabric that can eliminate "erect cockles" and restore natural color richness. Screen surface soft, flat and not easy deformation. Comply with RoHS, anti-UV, anti-static, cleanable, fire proof, anti-mold, non-aging.

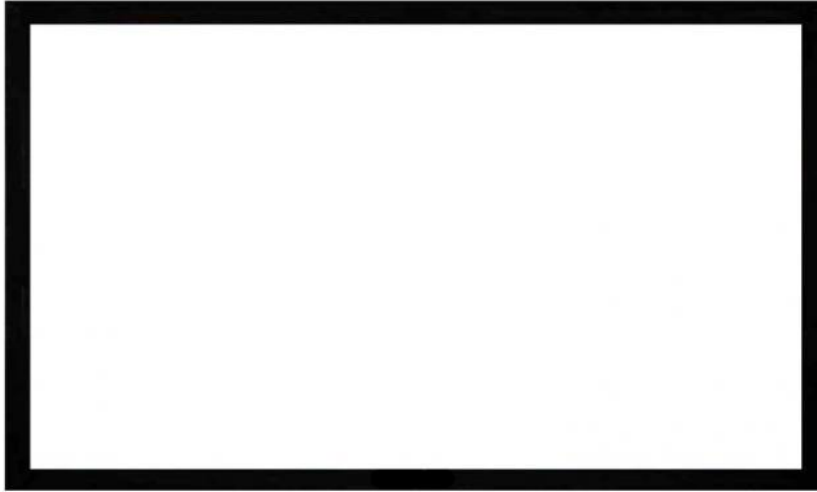

It is a good choice for video projection. white Video Spectra is the most suitable when there is limited ambient lighting and a wide viewing angle is desired. Suitable for home theaters, scientific research institution, government institution, command center, entertainment sites.

2 Year Manufactures Warranty by Snowwhite Screens; ISO9001:2008 manufacturer since 2002
