Product Description

Description:

The product uses original A-level panels from BOE/AUO/LG, and can be used with Android Windows, or domestically produced information and innovation platforms such as Lin and Tongxin infrared, nano, capacitance, and Shida, etc, to meet customers' actual application needs in multiple scenarios. The integrated cold rolling process of metal stamping, the matching of the profile frame, and the high-transmittance tempered glass have a grand and stable appearance and are widely used in business, administration, education, entertainment and other fields.

Feature:

- 1: BG series products adopt new environmental protection technology, high stability, can adapt to and work normally in harsh environments
- 2: Professional industrial LCD screen, video images are clearer, natural, delicate, and visually more impactful.
- 3: Ultra-thin design concept, thickness is only 18mm, stylish and generous appearance.
- 4: With automatic adjustment function to enhance the image layering
- 5: With automatic elimination of residual image function to protect the long-term use of LCD screen
- 6: High resolution, high contrast, high brightness, greatly improve the picture layering, can better show details.
- 7: With an ultra-long service life of more than 60,000 hours, and can work 7*24 hours uninterruptedly
