Smart catering wall-mounted advertising machine can realize the interaction between restaurant operators and consumers. The catering multimedia publishing system can place advertising machines in various places such as hall stairwells and boxes to play catering introductions, local tourism, time, weather and other information, and support different locations to play different information. The integrated cold rolling process of metal stamping, the matching of the profile frame, and the high-transmittance tempered glass have a grand and stable appearance and are widely used in business, administration, education, entertainment and other fields.
