

## 8k Moterized Holographic 3D Displays Lifting Projection Screen Tulle Curtain Wedding Outdoor

### Our Product Introduction

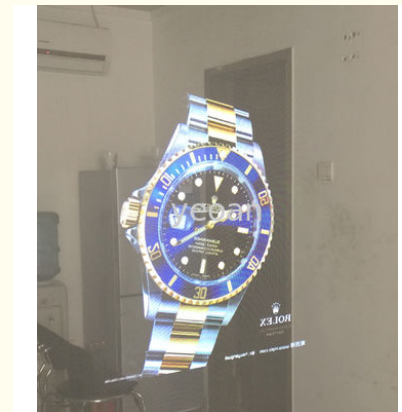

#### Basic Information

- Brand Name: Yeoan or OEM
- Model Number: HF Series

#### Product Specification

- Width: 3-7 Meters
- Maximum Length: 100 Meters
- Thickness: 90UM
- Light Transmittance: 78%
- Tensile Strength: 2600.LBS%
- Hardness: 2H
- Highlight: Outdoor Holographic 3D Displays,  
Tulle Curtain Holographic 3D Displays,  
Tulle Curtain 8k holographic display

## Product Description

### Product name: Holographic projection gauze screen

Holographic invisible gauze screen. Display a new projection medium in important event scenes, which is more transparent than traditional screens, and can make the image suspended in the air to produce a hazy and magical visual effect. Bring a high, large, and visual feast to the viewer.

The biggest advantage of the holographic invisible gauze screen is that it is transparent. While maintaining transparency, it can ensure that the picture is still bright and the colors are bright and saturated. The audience can see any object on the back through the holographic invisible gauze screen, and can also use the light transmittance for secondary imaging. It is more transparent than the traditional projection screen and can make the image suspended in the air. Through the mapping of multimedia projection equipment or stage lights, the dynamic video is displayed on the holographic invisible gauze screen, which can emerge a dreamy and gorgeous picture. Multimedia equipment can be used to perform multi-screen fusion or splicing technology to complete the super-large display screen and create a spectacular scene. It can also be combined with the LED display behind the gauze screen to achieve a double visual effect. It can be said to be a perfect combination of art and technology, which is very ornamental and the best way to capture target customers. It can be installed in a variety of ways, such as curtain type and hanging electric remote control type. In addition to many standard sizes, we can also accept special customization requirements from users to meet all reasonable requirements of users to the greatest extent.

**Gauze curtain categories:** pearl white invisible gauze curtain, deep space gray invisible gauze curtain, magnetic black invisible sand curtain

Application areas: large stages, corporate exhibition halls, exhibition halls, museums, theme parks, wedding venues, concerts, etc.
