

## Invisible 3D Holographic Display Product Transparent Projection Gauze Screen

Our Product Introduction

for more products please visit us on [projector-hd.com](http://projector-hd.com)

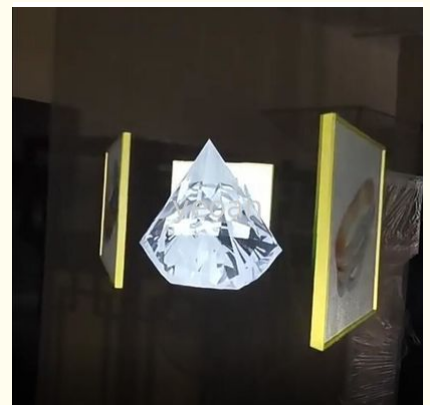

### Basic Information

- Brand Name: Yeoan or OEM
- Model Number: HF
- Minimum Order Quantity: 50
- Price: negotiate
- Packaging Details: talk with me
- Delivery Time: 25 days
- Payment Terms: L/C, T/T

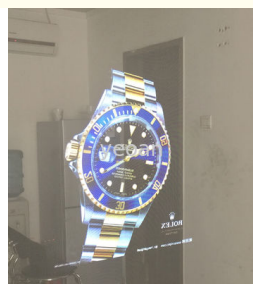

### Product Specification

- Tensile Strength: 2600.LBS%
- Hardness: 2H
- Thickness: 90UM
- Maximum Length: 100 Meters
- Width: 3-7 Meters
- Light Transmittance: 78%
- Highlight: Invisible 3d holographic display,  
3d holographic display Gauze Screen,  
hologram product display Gauze Screen

### More Images

## Product Description

### Product name: Holographic projection gauze screen

Holographic invisible gauze screen. Display a new projection medium in important event scenes, which is more transparent than traditional screens, and can make the image suspended in the air to produce a hazy and magical visual effect. Bring a high, large, and visual feast to the viewer.

### General practices of holographic gauze screen:

1. The lifting reel is electric, which can be divided into upper and lower rolls according to different sizes.
2. The left and right electric track holographic gauze screen can be left and right control or unilateral control;
3. Simple holographic gauze screen, with upper and lower edges, is fixed with rods when in use. That is, the edges are punched around, and then stretched and fixed at the site of use. This method is simple and easy to install.
- 4 The reel folding lifting is different from the reel electric type. It uses a reel pull line to pull the lower shaft from bottom to top. The gauze screen with fish wire or steel wire is folded and lifted when it rises.
5. Other customization methods

Different gauze screen forms can be customized according to different project requirements and usage scenarios.

**Gauze curtain categories:** pearl white invisible gauze curtain, deep space gray invisible gauze curtain, magnetic black invisible sand curtain

Application areas: large stages, corporate exhibition halls, exhibition halls, museums, theme parks, wedding venues, concerts, etc.

### Product parameters:

Width: 3-7 meters

Maximum length: 100 meters

Thickness: 90UM

Light transmittance: 78%

Maximum viewing angle: 180 degrees

Gain: 2

Tensile strength: 2600.LBS%

Hardness: 2H
