

Indoor Dynamic Holographic 3D Displays 800X1280 500cd/M

Our Product Introduction

Basic Information

- Brand Name: Yeoan or OEM
- Model Number: YG101Y
- Minimum Order Quantity: 100
- Price: negotiate
- Packaging Details: Carton packaging (aviation box optional)
240*240*430mm
- Delivery Time: 30days
- Payment Terms: L/C, T/T

Product Specification

- Input Voltage: AC110-240V(50Hz-60Hz)
- Panel Size: 10.1" / Can Customized Different Size
- Imaging Area(cm): 135*216mm
- Cabinet Size: Diameter 165*Height 300mm
- Application Place: Indoor
- Brightness: 500cd/m
- Resolution: 800X1280
- Highlight: **Dynamic Holographic 3D Displays,
800X1280 Holographic 3D Displays,
Indoor 3d hologram display**

Product Description

Descriptions:

Holographic circular display projection imaging is also called 3D holographic imaging and holographic 3D imaging.

It is a circular cylinder made of transparent material.

The audience's sight is reflected by the surface mirroring and reflection, and the audience can see the free floating images and graphics in the cylindrical space.

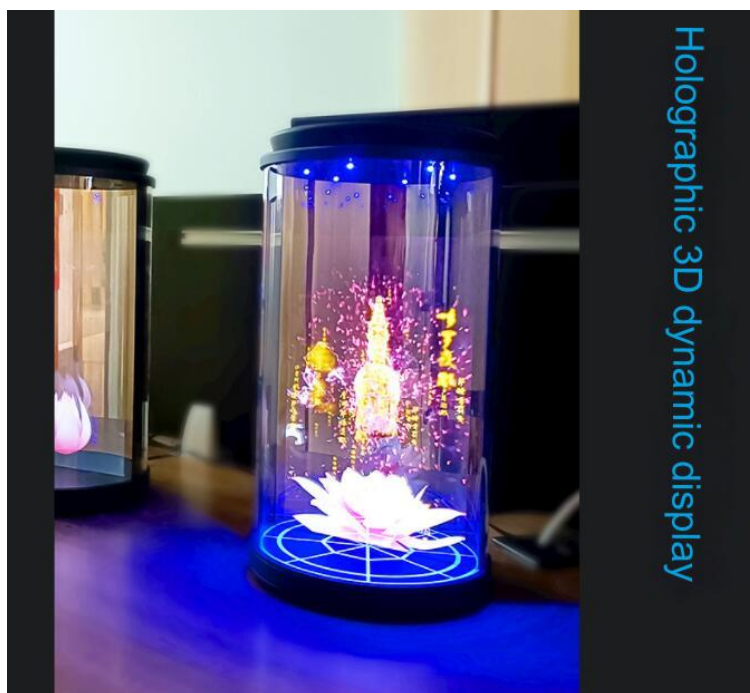

The video transmitter emits light signals to the special prism in this cylinder, and after gathering together, it forms a three-dimensional image with real dimensional space.

The cabinet is stylish and beautiful, with a sense of technology. The real space imaging is bright in color, high in contrast and clarity; it has a sense of space and perspective. Diverse content - the three-dimensional holographic system can change digital content at any time according to demand, and the professional operation of the Ivy production team will become a strong backing for your perfect display.

Main application areas: Science and technology museums, exhibition halls, and interiors of landmark buildings. Suitable for expressing individual items with rich details or internal structures, such as famous watches, famous cars, jewelry, industrial products, and can also express people, cartoons, etc., giving the audience the feeling that they are completely floating in the air. The specific size can be flexibly set according to customer requirements.

Specificaions:

Name	Cylindrical holographic display cabinet
Showcase Model	G101Y
Cabinet size	Diameter 165*Height 300mm
Image size	135*216mm
Panel size	10.1 inches
Proportion	10:16
Resolution	800X1280
Brightness	500cd/m
Contrast	800:1
Input Interface	USB/SD card
Appearance and structure	Aluminum alloy + acrylic material
Audio	Built-in speaker 2W*2
Video Format	MPG, AVI, MP4, etc.
Frame rate	25.00 fps
Image Format	Support JPEG, BMP, GIF, PNG
Memory expansion	TF card 2GB--32GB expandable (optional)
Power	10W
Input voltage	DC12V
Product Weight	2.8KG
Product Packaging	Carton packaging (aviation box optional) 240*240*430mm
Warranty	One-year warranty except for man-made or natural disasters
Appendix	Remote control*1, adapter*1, USB flash drive 8G*1
